

THE Gleichen Call

TWENTY-SECOND YEAR NO. 37

GLEICHEN, ALBERTA, WEDNESDAY DECEMBER 12, 1928

SUBSCRIPTION \$2.00 PER YEAR

Old-Timers Best And Biggest Yet

Fully 500 Crowd Into Hall--Ideal Weather--Everyone Happy

[That the third annual Old-Timers' dance was the biggest and best ever attempted in Gleichen there is no gain-saying, everybody admits it and everybody is saying so.

It truly was a wonderfully happy event from the moment Art Bremner and his orchestra unheated their instruments Friday evening until 3:40 when the last note of "Good Night Ladies" sounded.

Sharp at 9 o'clock J. E. Ostrander called for the "Grand March" and the big event was on. Be it said the beauty of this number is steadily improving each year and although it is somewhat difficult for the younger folks they are gradually learning a little and the older folks would not be real old-timers if they did not aid them and cheerfully overlook the little errors, and besides it creates fun for the spectators.

The Community Hall then seemed to be filled to capacity but still the crowds poured in from every point of the compass, until it is estimated there was fully five hundred present, hailing from fifty miles and more as the long continued mild weather made motoring excellent.

The Grand March was followed by all the old dances that have yet reached the wild west, and included a number of the most modern. Dance--why everybody simply had to dance, couldn't help themselves, just had to do it, for that music took out rheumatism, gout and all the other ailments like magic. Of course, there were plenty who said their dancing days were over, but watch them a few moments and, all quite unconscious their feet began to wiggle, their eyes sparkle and off they hopped or at least jigged around in the corner--thirty years rolled off and once more they were young, swinging their partners off their feet. O, it was great.

The hall was wonderfully decorated under the management of Mr. H. W. Marcellous who seemed to possess a special gift in this direction, showing real art, not being too profuse, and yet a great amount of labor in arranging the bunting, evergreen, lanterns, etc.

The ladies of the Women's Institute had the tables in the dining room bountifully and artistically ready to serve at 10 o'clock. But it was a full hour later before the guests could take their seats away from the dining, and then they came in a rush and kept the ladies going until about 2:30 feeding them, when they ran short on several of the staple lines of edibles, but not until they set the tables for the fifth time, while the restaurants were called upon and had no small business. At times the good-natured crowds waiting to be served nearly forced the doors open, and kept door attendants busy.

There was fun galore for the spectators as the night wore on watching the over-crowded dancers bump and jostle each other with an occasional spill. Some maintain they are still holding their sides from the aches of laughter.

Here and there were seated some of the most ancient old-timers indulging in chat of the long ago and telling many good stories of the early day life.

Up in the Club room all kinds of games were indulged in by those tired of the dance and excitement on the main floor.

From the operating room each dance was flashed by Prof. Moe on the screen as well as many with sketches that caused many a hearty laugh.

The step-dancing, Highland dance, and other novelties were numerous and performed quite equal to the best anywhere.

Art Bremner's orchestra from Nakama, comprised Mrs. Phil Waters, piano; Mr. Atkins, cornet; and Art as usual made the violin talk. He regrets his drummer was unable to be present. Art and his orchestra

has become quite famous and are now classed as Alberta's best old-timer music dispensers and there are critics who do not hesitate to designate this orchestra as the best all around musicians. All will, however, agree that they were accountable for the success of our Old-Timers' dance again this year. Any who dare say otherwise belie it with both their actions and words.

Coupled with Art's Namaka splendid acquisition there was present such faithful old-timers as Dad Pinder, Dave Brown, Bob A. Brown, and Marcellus Bollinger all nimbled up to the finest touch of the violin, and Jimmie Eglesse was excellent on the piano. Not forgetting J. R. Allgood's banjo and, furthermore, there was a sprinkling of comparative youngsters in the Gleichen district such as Curley Morrow touched up the piano a few times. H. S. Sandford never tired on the drums and F. Sharp's saxophone greatly helped the melody, also Charlie Norwest, and Indian boy with his violin. Archie Blais also helped out while Art was at supper.

NOTES OF THE DANCE

Brownie worked up a coffee thirst about a dozen strong.

Those Scotch dances sure sagged the floor.

Seems our hall will need enlarging ere next meeting of old-timers.

The weather gods surely favored with balmy breeze and good roads?

Ballon trousers and cuffs may be all right on occasions. But, oh, boy! In Friday nights crowd they were not all joy. The spike heels of the ladies frequently caught a cuff in a manner that made the shies squirm.

Who swipped the rope holding the crowd back?

The screen as an announcer proved quite popular thanks to H. W. Marcellus' fertile think tank.

The railing in front of the orchestra was a mighty useful, especially during the step dances.

Dan gave a real ear specialty as accomplished in Scotland.

At times good lungs were necessary for those desiring to hold conversation with friends.

There was a gentleman present in kilts who gave some splendid exhibition of Highland dances. We have been unable to ascertain his name.

Plante Bros. Thos. and Adolph, gave a great exhibition of step dances.

Never before was there such an array of cars at a dance here. They lined up the street and around the hall.

The south country people turned out strong.

If the Old-Timers' dance was a success socially it was equally so financially. The total receipts were \$800.80, of which the Women's Institute received \$178 for the supper and the other expenses amounted to \$122.05, leaving a net balance of \$500.55.

The first prize for selling the most tickets for the dance was won by Rousche Desjardine, second by D. Hutcheson and third by Norman Schnepf.

Mrs. Martial Rougeau of Cluny was the lucky winner of the pig, donated by Mr. O. Desjardine, although Mrs. Joe Rousche thought it was her name called and, when his pigship was turned out of the handsome chariot in the hall she bravely gave chase and mid lots of fun captured him. Being

GLEICHEN BOARD OF TRADE MEETS

The Gleichen Board of Trade luncheon Tuesday noon proved quite interesting to those present, namely: Mrs. T. H. Beach, Messrs. Marcellus, Hutcheson, Harrison, Yates, R. A. Brown, Maclean, Mallory, Cuthbert and Evans.

A report was made concerning the town sewer situation in which it was stated the Public Health Department had taken up the matter with the Public Works Department and nothing could be done until spring when the work would be completed. The report was accepted on motion of Messrs. Mallory and Hutcheson.

Secretary Cuthbert reported the success of the luncheon given by the Board of Trade and Canadian Club when Bishop Sherman delivered an address in which a surplus was earned and on motion of Messrs. Hutcheson and Maclean the report was accepted and the surplus will be divided by the two societies.

A letter was read from the Gleichen U.F.A. stating a committee was ready at any time to meet the Board's committee with a view to forming a Chamber of Commerce. Messrs. Hutcheson and Maclean that the executive and Mr. Geo. H. Gooderham be a committee to meet the U. F. A. committee at 8:15 Thursday night.

Before adjourning the repairing of the flag pole was discussed and Messrs. Hutcheson and Yates moved that the Board recommend to the Town Council that the flag pole be repaired so that the flag can fly.

re-established in his chariot it was taken over to Walker's garage for safekeeping, which his pigship thought an insult and escaped. After a long hunt he was located nicely bedded-down under the firm's safe.

Following is list of those present who filled out the cards on the supper table. Although there were many who neglected this and others could not be read:

Mr. and Mrs. K. S. Edwards, Cluny; Mrs. Geo. Riches, 1909, Mr. Geo. Riches 1911, Arrowwood; Marie Corbiell, 1912, Cluny; S. C. J. Roubourne, 1905, Crowfoot; W. T. Mallett, 1898, Queenstown; Mrs. W. T. Mallett, 1905, Queenstown; Ronald Clark, 1911, Cluny; Allen Clark, 1906, Cluny; Fred Jack Schiffner, 1914, Cluny; Irene Telford, 1909, Cluny; John Clark, 1883, Crowfoot Creek; Mrs. John Clark, 1900, Crowfoot Creek; George Desjardine, Jr., 1907, Cluny; Florence M. Palmer, 1904, Cluny; Warren L. Gordon, 1910, Cluny; R. Jens, Hussar; Mildred Davidson, 1911, Calgary; Mrs. Robt. Beasome, 1910 Arrowwood; W. F. Durston, 1907, Queenstown; Dwigler Richards 1915, Arrowwood; Mrs. F. E. Bell 1918, Arrowwood; R. M. Shouldice, 1903, Arrowwood; Mrs. D. R. M. Shouldice, 1904, Arrowwood; Mrs. G. Beatter, 1910, Cluny; N. McCord, 1908, Milo; G. W. Beatter, 1904, Cluny; Fred Gervais, 1916, Cluny; W. J. Service, 1898, Arrowwood; Bob Beasome, 1905 Arrowwood; Joe Soper, 1908, High River; R. C. Telford, 1909, Cluny; Joe Telford 1890, Cluny; Mrs. R. House, 1910, Arrowwood; Mrs. Weberg, Shouldice; Alice Scott, Calgary; Mr. T. Bellala, 1909, Cluny; Mrs. T. Bellala, 1911, Cluny; Chas. Anderson, 1900; Frank Wolfe; Mrs. J. H. McCann, Arrowwood; Rita Peters; Mr. and Mrs. B. F. Graham; Mr. and Mrs. Geo. L. Pedersen, 1911; Mrs. Smith, 1925; Paul Jones, 1909, Arrowwood; Mrs. W. R. Payne, 1910, Calgary; Lyma Gordon, 1922, Cluny; Mrs. P. Brown, 1890, Queenstown; Mr. Martial Rougeau, 1915, Cluny; Charlie Jones, 1900, Cluny; L. A. Leavens, 1898, Cluny; Mrs. Chas. B. Jones, 1905, Cluny; Mr. Hallett, 1911, Cluny; D. H. Crapo, 1907 Cluny; F. S. Fairbourn, 1911, Cluny; J. P. Hansen, 1893, Standard; R. G. Defoe, 1897, Shouldice; Mrs. Elmo Defoe, 1885, Standard; Keith Bobson, 1894, Cluny; Mrs. Marilla Rasmussen, 1893, Standard; Mr. and Mrs. G. A. Rubbelke, 1912, Queenstown; Mr. and Mrs. Christensen, 1903, Standard; N. P. Nelson, 1903, Standard; Mr. R. House, 1907, Arrowwood; Mrs. L. A. Leavens, 1902, Cluny; P. Brown, 1890,

GENERAL MEETING CANADIAN LEGION

General meeting of the Canadian Legion B. E. S. League No. 13, Gleichen branch, was held in the Community Hall Monday night, when there were present:

Comrades, H. Phillips, J. Eglesse, A. G. B. Lewis, A. Greer, G. Mablesen, M. Wade and P. Maclean.

The meeting was called to order in the usual manner, one minutes silence being observed.

The minutes being read and adopted, a report on the Poppy Campaign was given by the secretary and a surplus of \$23.25 was shown, which is available for relief of destitute returned soldiers.

The dance and banquet report showed a very successful affair and a good financial surplus, thanks being due to all who turned out to patronize the soldiers.

A hearty vote of thanks was given to the committee for the success attained at all the events.

An open discussion took place regarding a building fund for club rooms for the local branch and a motion was passed to start one.

The first donation to this fund was \$10.00 from Mr. T. W. Bates, sr., who is honorary president of the local Legion for which the branch passed a vote of thanks.

The meeting passed a motion to transfer fifty dollars of the dance surplus to the building fund.

It was proposed that the annual meeting and election of officers take the form of a smoker after the election and that the executive make necessary arrangements for this.

A motion passed to send flowers to Comrade Rev. Davies who is recovering from an illness at the present time.

OBITUARY

Milo Munroe, passed away in a Calgary Hospital last Wednesday, Dec. 5th, after a prolonged illness of heart trouble, the funeral taking place Thursday morning from St. Mary's cathedral to St. Mary's cemetery Calgary. Members of the Crescent Lodge No. 14 Knights of Pythias acting as pallbearers, he being a member for many years of the order, joining Gleichen Jubilee Lodge No. 35 shortly after it was organized in 1912.

He was born in Ingersoll, Ontario, sixty-three years ago and coming west twenty-three years ago stopped at Gleichen and took up a homestead in the Queenstown district and was the founder of Milo being its first postmaster. He took a keen interest in building up that new town and was ever ready to assist in any and everything for the best interest of the entire district.

Besides his wife and daughter Mrs. Joachim Scully of Milo, he leaves a host of friends to mourn his demise not only in the Milo vicinity but far and near.

GRASS WIDOWERS ORGANIZE CLUB

An organization meeting of the Grass Widowers Club was held this week to decide on the activities of the club for the winter months. Ed. Menard was elected chairman for the evening. The following officers were also elected by acclamation:

Past Presidents--Lester, Schmidt, Kelly, Carreck, Moe, Heinbecker, Baker and Joe Kueche.

Just Past Presidents--Bogstie, Marcellus, Boos and Gooderham. Presidents: Taylor, Ostrander, Menard, Busby and Jas. Young. Chaplin: Rev. J. R. Davies.

Secretary: Geo. Evans, who was noticed going down the street and he was promptly called in to fill the chair.

Treas: It was decided that as the members had enough expense that it would charge this office to the secretary.

It was decided that luncheon would be held by the members in any restaurant that was suitable at the hour of twelve. Dinner in the same places at six o'clock. The evenings to be spent in any environment that is

THE TURKEY GOBBLER

The great Canadian bird is not the hen nor the eagle, but the turkey gobbler. The gobbler is lord of the barnyard and field marshal among the fowls. See him strut in the fullness of his pride, tall feathers spreading, head up, wings trailing, but not ingloriously! His crimson comb and purplish wattles give him the appearance of a red-faced and important gentleman who is querulously concerned in everything going on about him. Such pomposity, dignity and swagger is rare. His irritable "gobble, gobble, gobble" strikes terror into the hearts of little children, but is music in the ears of the more sophisticated who envision him trussed up in a roaster and stewing in his own juice.

The turkey has been closely associated with north American history from the beginning. It will be remembered that at the famous Thanksgiving feast of the Pilgrim Fathers in November, 1621, in which the friendly Indians participated, wild turkey was the chief delicacy. Once this elusive bird was plentiful but now the wild species is all but extinct. In only a few sections of the country the wild turkey may be found. It begins to look as though the domestic turkey is destined to go the way of its progenitor. Young turkeys are hard to raise and Christmas demands exceeds the supply. No one wants to see the day when the turkey has disappeared from the land and the proud gobble struts and fumes no more.

There is no substitute for the turkey gobbler in sight. As compared with him the rooster is plebeian and the gander "a lesser breed without the law." The gobbler is a symbol of prosperity and a token of hospitality as well.

It was also decided that all members would act as an entertainment committee and that liquor permits would be left in the hands of the secretary, also that bridge would be a popular game for the season. The pass word was decided after a great discussion that "Who is next" would be suitable and easily remembered. It was also decided that a motion to adjourn would not be in order as the members had no place to go.

To bring the meeting to a close it was suggested by Ed. Menard, who still was chairman that they would all stand and sing the old favorite song there is, "No place like home."

The past Presidents then sang the song "I am on my way."

It was decided after the meeting that all business would be printed in the Gleichen Call so that those on the inside would know what those on the outside were doing.

So keep your eyes on this space.

Xmas. Shopping Will last only a few more days.

Jap Oranges will be on the market this week get your Xmas box early and be sure to get one.

How About that Box of Apples for Xmas

XMAS NUTS
Almond, Brazils, Filberts, Walnuts and Peanuts from 20c. to 35c. per lb.

Our Xmas Candy is nicely assorted from 25c. to 45c. per lb.

LADIES HANDKERCHIEFS
MENS XMAS. TIES, SOX'S GLOVES, BRACES, CIGARS, TOBACCO'S and CIGARETTES

Next week we are going to give an Xmas. Special on Navel Oranges which will be worth while watch our ad. for next week.

WORLD HAPPENINGS BRIEFLY TOLD

There are more rats than humans in Buffalo, according to a report by Francis E. Franczak, city health commissioner, in urging a campaign to reduce the rodent population.

At the Royal Fair, Toronto, J. E. Falconer, of Govan, Sask., won the Carlewright trophy, the championship cup, with his three-year-old Clydesdale, Lochinvar.

Commander Hugo Eckener has reached an agreement with the Aero Arctic Society to undertake two Arctic exploration flights in the dirigible Graf Zeppelin, in 1930, under Aero-Arctic auspices.

Inspector A. E. G. Reames, in charge of the criminal investigation department of Royal Canadian Mounted Police, for Vancouver district for some years, has been transferred to Lethbridge, Alta.

Earl Jellicoe, retired admiral of the fleet, has been appointed director of the Midland bank. He is already a governor of the Bank of New Zealand, in which dominion he was formerly governor-general.

Bavaria has decided to publish a number of secret documents, including Crown Prince Rupprecht's war diaries. It is believed the diaries and archives will reveal many important clues to events of the World War.

Admiral Reinhard-Scheer, who directed the German fleet at the battle of Jutland on May 31, 1916, against the British fleet, is dead at the age of 65. His death occurred as he was travelling from Dresden to Mannheim.

Saskatchewan has been successful in taking first and third prizes in the extracted honey class at the Toronto Winter Fair. H. C. Baker, of Fielding, Sask., was awarded the first prize and Walker L. Bunavon, of Crichton, the third.

The Alberta legislature will be called to meet on January 24, it is announced by Premier Brownlee, subject to any unforeseen developments in connection with the sale of the government railways. This will be the earliest opening date since the province was established.

Tree Grows Around Telephone Block

Rings Show It Was Attached Thirty Years Ago

When a cottonwood tree was cut down near New Denver, B.C. recently, it was found to contain in its heart a telephone line block, the piece of wood to which the glass insulator for the wire is attached. The tree had grown completely around the telephone block, which was in perfect preservation. Counting of the tree rings disclosed that it had been attached to the tree thirty years ago.

This fact was borne out by G. Williamson, manager of the telephone company, who recalls when the telephone wire was first installed, establishing communication between Silverton and New Denver during the great mining boom days.

Saskatchewan Wheat Pool
The Saskatchewan Wheat Pool Country Grain elevators to the number of 940 in the province handled up to November 13, 1928, since the opening of the crop season, 88,362,000 bushels of grain compared with 54,291,000 bushels last year, an increase of 34,071,000 bushels.

A baby kangaroo is not much bigger than a man's thumb.

Canadian National Railways Design New Type Locomotive

Represents Revolution in Advance In Motive Power Equipment and May Supersede Steam Engine

A new locomotive which represents a revolutionary departure from all present standards and practice and which may render the steam locomotive as extinct as the "dodo" has been placed in service by the Canadian National Railways. Presenting a tremendous advance in the use of the oil-electric type of locomotive it forms a distinctive offering on the part of Canadian engineers towards the solution of the transportation problems of this continent. As the National System was the pioneer, three years ago in placing in service the first oil-electric car of 200 horse power rating, its engineers have maintained leadership by the introduction of this locomotive, new in character and design for fast passenger and freight service.

When the first oil-electric car was put into service by the Canadian National Railways, it established two world's records in rail transportation by a continuous run from Montreal to Vancouver, a distance of 2,937 miles, in 67 hours, and by a continuous operation of the engine during that period, the longest non-stop run in rail history. The new oil-electric locomotive is considered to be capable of even greater performance.

The new locomotive is the further practical application of the use of fuel oil in railway transportation in which an oil engine is used to drive a generator for supplying electrical energy to the propulsion motors. Power and speed are obtained at costs far below those of coal fired steam driven locomotives.

Simple To Operate

In appearance it resembles the electric type. The operation is simple, the engineer directing the propulsion by means of a controller similar to that used on an electrically driven tramcar. This controller and an airbrake valve give the driver complete control of the locomotive. For his guidance, a series of meters and gauges furnish complete information regarding voltage, oil supply, and air pressure. The locomotive consists of two units, which may be operated jointly or independently, as required, and it is one unit which is now in service. When the second unit is completed and ready for service, the two will be coupled and will proceed to various cities, so that the public generally may have an opportunity of inspecting this new product of the enterprise of the Canadian National Railways.

The locomotive weighs 650,000 pounds when fully equipped, 480,000 pounds of which are carried on the driving wheels. Each unit consists essentially of an oil engine generator set mounted on the locomotive frame, boiler equipment for the steam heating of passenger coaches, four traction motors, for propelling the locomotive airbrake and other auxiliary equipment.

The power developed by the oil engine is converted into electrical energy by the generator, transmitted to the traction motors geared to the driving axles, where it is utilized in developing traction effort and speed. With the present gear ratio, which is laid out for high speed passenger service, the locomotive will develop a tractive effort of 100,000 pounds during the accelerating periods. This compares with a tractive effort of 65,000 pounds developed by the largest steam locomotive now in use on the lines of the company in Western Canada.

Carries Much Fuel
Each unit carries approximately 8,000 pounds of fuel oil, 11,000 pounds of boiler water, 3,000 pounds of engine jacket cooling water, 1,000 pounds of engine lubricating oil, and 3,000 pounds of sand. The supply of oil will be sufficient for operation of the oil engine and the oil-fired heating boiler, operating under average conditions, for twelve hours. The supply of boiler water will be sufficient for heating a train of average length for periods of from six to twelve hours, depending upon outside temperature. The locomotive will handle the heaviest passenger train at a high schedule speed.

The power plant contained in the locomotive is sufficient to furnish energy for lighting a good-sized community, while the heating apparatus, which will provide comfortable temperatures in the cars even in severe weather, could heat a large modern apartment.

The inspiration and the design of the locomotive originated with motive power engineers of the Canadian National Railways. The oil engines were supplied by the William Boardman Company, Limited, of Glasgow. The electrical generators, motors and auxiliary electrical equipment were supplied by the Canadian Westinghouse Company, Limited, of Hamilton, Ont. The cabs and running gear were built and assembled on the frame by the Canadian Locomotive Company, at their works in Kingston, Ontario.

Two Steps Too Many
During a sham fight a regiment got lost in a thick mist, and it was late in the afternoon, after a long march, that the men arrived in a town 12 miles from the barracks.

The commanding officer halted the battalion in the square and said:—"Men, I would like to push on to headquarters, but will only take those that volunteer. Who wish to stay here for tonight, two steps backward march." All moved except one. "Well, Private Smith, I am proud to think that you are still here for another 12 miles," said the C. O. "Twelve miles!" replied the soldier, "I canna tak' two steps back."

Trotzky Outwits Soviets

Has Written Book Which Will Bring Discomfort On His Exilers
Leon Trotsky, from his remote solitude in Turkestan, has managed to bring discomfort upon his exilers. It appears that, since his expulsion from the Soviet, he has devoted his time to the writing of a book in which he tells the world the true conditions brought about by the Bolshevik regime. This work, which he has entitled "The Real Situation in Russia," he has contrived to get smuggled across the frontier into Germany, where a translation is ready for publication. The book, even after making due allowances for Trotsky's natural resentment against the present Moscow Government, is said to be the most convincing condemnation of Bolshevism yet given to the world. It also shows beyond doubt that the present regime is fast approaching a debacle. Critics of Trotsky have sometimes questioned his personal courage, but this book, at any rate, ought to vindicate his bravery. It will be surprising if the Stalinists do not take vengeance upon him for his exposure of their methods.

Getting Together

Farmers and Business Men Discuss Problems At Toronto Meeting
Representatives of agriculture met with representatives of industry and commerce at Toronto recently, and discussed the advantages which would flow from closer co-operation and better understanding.

Agricultural leaders were present from every province in the Dominion and joined in friendly discussion with the national executive of the chamber of commerce.

As a result of the conference, which was a preliminary one, the whole question of co-operation between agriculture and other interests will be gone into at a larger conference which is planned for sometime next spring. The conference will be held under the auspices of the Canadian Chamber of Commerce, and will include all the agricultural organizations and all the commercial associations in the Dominion.

One of the most discussed problems at the meeting was the difficulty of getting business men to appreciate the agriculturist's point of view. The desirability of this was fully realized it was stated.

Calf-Feeding Competition

Thousand Calves To Be Distributed To Boys and Girls In Central Saskatchewan

A Mammoth Calf-feeding Competition has been organized by the Saskatoon Exhibition, the Board of Trade and livestock organizations, with the co-operation of the Federal and Provincial Government and Agricultural Societies. A thousand calves have been purchased from the famous Ross Ranch in Alberta, to be distributed to boys and girls in Central Saskatchewan in lots of fives, threes and singles. Prizes totalling \$5,000 will be distributed at the end of a six months feeding contest; (a) for the greatest gain per head per day; (b) for quality and finish irrespective of gain; (c) for the best record of feeding. The show and auction sale will be next June, and the competition is already interesting buyers from all the larger markets in the United States and Canada.

Fame Spreads To Mexico

Record Of B.C. Hen Attracts Attention Of President Calles
Even Mexico has heard the cackle of Hen No. 6, the world famous egg layer of the University of British Columbia, which shattered all records for production.

Two personal envoys of President Plutarco Elias Calles, have been in Vancouver negotiating for the purchase of several pullets of the Hen No. 6 strain and they will be used as part of the foundation stock which President Calles is establishing on the presidential stock farm.

Now that Senor Calles is retiring from the presidency, he will devote all his time to his farming interests and his farm will be a sort of experimental station from which the farmers of Mexico will receive their guidance. There will be more than 6,000 birds located here.

Satisfied With Canada

More than 300 letters have been received by Dominion officials in London from harvesters now back in Britain after working in Canada, expressing their desire to return to Canada next spring. Rt. Hon. L. C. M. S. Amery, Secretary for Dominion Affairs, has revealed in the British House of Commons.

The total woodland area of Great Britain is 2,958,672 acres.

Still World's Best

No Better Force Than Canada's Royal Mounted Police

Some people may have the impression that the glory of the "North-west Mounted" died with the settlement of the prairies, and that the chief duty of the Royal Canadian Mounted Police today is to guard income tax offices, with an occasional arrest for illicit drug dealing thrown in for variety. Nothing could be further from the truth. Never in all its history has the force done finer or more difficult work, requiring more courage and submission to hardship on the part of the individual member, than it is doing today.

The West is no longer frontier country, but a vaster, harsher frontier has been opened up, namely the far north. And to the great areas of Canada's arctic mainland and islands, a handful of Mounted Police have brought peace and security of law. For a lone policeman to make a patrol of a thousand miles or so over sea and land ice, enduring every conceivable form of what the uninitiated would call hardship, is not a remarkable event but rather all in the ordinary day's work. The farthest north police post in the world is at Bache Peninsula, Ellesmere Island, just a few hundred miles from the North Pole. The police make journeys of mercy as well as of justice, and not infrequently valuable geographic and other scientific discoveries result from them. But this is only one phase of the work of the force. The number of investigations of various sorts conducted for different branches of the government is staggering, and this is important if not spectacular work. If the Royal Canadian Mounted Police did nothing else but conduct the Criminal Identification Bureau, its existence would be more than justified.

Although nearly all the Commissioners of earlier times are well known from tales of the pioneer years, it is doubtful if fifty per cent. of Canadians even know the name of the present commissioner. Yet Colonel Cortlandt Starnes does not have to take a back seat to any one of them when it comes to comparing records.

His work, especially in the Yukon during the hectic years of the gold rush, and again at the time of the Winnipeg general strike, cannot be overestimated in value. He is a fine type of French-Canadian gentleman. The old standing of the "Mounted" has in no manner been lessened and Canada is still the proud possessor of the world's finest police body.

Sixteen submarine cables, linking up all parts of the world, are joined to the Azores, where the cable exchange is nicknamed the "Charing Cross of the Atlantic."

Cheese Industry Has Excellent Future

Canadian Product Popular In England, Says Ontario Dairy Commissioner

George H. Barr, Dairy Commissioner for Ontario, forecasts an excellent future for the cheese industry. He says remarkable progress has been made this year. During the season just past he spent two months in England, Scotland and Denmark, and thereby was able to come to a good conclusion of the opinion of dealers and others there regarding Canadian cheese. In London he made a diligent search, but found only one place where second class Canadian cheese was sold. The dealers' only fault-finding regarding Canadian cheese was that there was not enough of it. The containers of the cheese, however, were battered and broken, and better boxes would be a popular feature.

Britain's Oldest Family

The O'Malleys Claim They Go Back To 365 B.C.

Apart from the Royal Family, which is the oldest in Great Britain and Ireland? This provocative question has produced volumes of correspondence from ancient families claiming the honor. Latest and most impressive of all is a claim from a member of the O'Malley family, which has been settled in Galway for centuries.

In his letter he stated that there is in existence a documented pedigree showing that his family, of which Sir Neville Wilkinson, the Ulster King of Arms, is a member through the female line, can be traced back to an ancestor who flourished in A.D. 365, or nearly half a century before the Romans left Britain.

Demand For Reward Wheat

Orders For Early Maturing Variety Are Greater Than Can Be Filled

Inquiries for Reward wheat, one of the new early maturing varieties which has been evolved by the cereal division of the experimental farms in the past few years, are pouring to Ottawa and already are greater than can be filled. Reports recently have been circulated that 25,000 bushels of Reward will be available for distribution. This is not true. The cereal division will have 10,000 bushels and the 350 growers who were allowed to grow Reward will have a surplus of 2,000 bushels, making 12,000 bushels all told.

Fortune Teller—And above all, sir, you must beware of a tall, heavy set lady with blue eyes.
Client—A white hat and blue dress—thank you, I knew that beforehand—that's my wife.

Counterfeit Money

Attempt Is Made In Winnipeg To Pass Spurious Bills

Winnipeg city police are attempting to locate what is believed to be an organized gang which is flooding the city with spurious money, mostly United States bills of \$20 denomination.

Business men, merchants, banks, commercial firms and citizens are warned to scan money passing through their hands closely, as the money bears an almost perfect resemblance to the genuine article.

One \$20 counterfeit bill is now in the hands of the authorities, while efforts are being made to procure others of the same type which are said to have been brought into the city in large numbers. This bill bears a picture of Grover Cleveland, former United States president, and a spurious signature of A. R. Mellon, secretary of the United States treasury.

Outstanding Wheat Crops

Some Big Yields Are Reported From Alberta

One of the outstanding wheat crops of the season is reported from Col. Frye's farm at New Dayton, Alberta. On a quarter section—160 acres—a wheat crop averaging 63 bushels per acre was harvested. The crop graded No. 1 Northern. Another good crop is reported from the Western Transfer Company farm, northeast of Lethbridge, where on 160 acres an average yield of 51 bushels per acre was recorded.

For Modern Youth

Paris created this chic blouse for youth and youthful type of woman. It has distinctive band trimming, which provides unusual scheme for color and fabric contrast. It is cut from neck at centre-front and bound and finished for closing, but if preferred, can also be closed on left shoulder. The applied neckband is finished with flat tailored bow, which treatment appears on applied front bands that form chemise. Two parts to pattern! The upper part of slashed edges at each side of front and back are gathered and joined to lower part, to achieve flat neckline, and slight blousing at sides. Style No. 343 is designed in sizes 16, 18, 20 years, 36, 38, 40 and 42 inches bust, and takes but 1 1/2 yards of 40-inch material with 1/4 yard of 36-inch contrast for 36-inch size. Beige jersey with brown, two tones in silk crepe in blue or new green, black and white lame, caramel crepe satin, novelty silk crepes and georgette crepe in scarlet red with black sheer velvet, are ultra-smart. Pattern price 25 cents in stamps, or coin (coin preferred). Wrap coin carefully.

Our Neighboring Planet

Investigations Reveal Fact That Mars Has Many Points Of Resemblance To The Earth

Recent investigation seems to have put beyond doubt the fact that Mars, notwithstanding important differences in volume, mass and distance from the sun, presents many points of resemblance to the earth. Its day is but forty minutes longer than ours; its axis is inclined to the plane of its orbit by very nearly the same amount, so that it enjoys the same succession of seasons as our world does. The Martian atmosphere, though rarer than ours, may not be so dissimilar as at one time seemed probable, for it contains oxygen and water-vapor, and the temperature is not very much lower than the temperature of our own world. That there is vegetation on Mars is indisputable; that animal life exists is probable; and it is not beyond the bounds of possibility that animal life has culminated in a race of intelligent beings who are, as Lowell believed, "in advance of and not behind us in the journey of life."—Dr. Hector Macpherson, F.R.A.S., in the Contemporary Review.

Santa Claus On the Wing

Will Use Aeroplane To Do Some Of the Work This Year

Even Santa Claus has at last yielded to the demands of modernity and is going to use aeroplanes to do some of his work this year. Whether the jolly old gentleman has decided to abandon his time honored sleigh and gallant reindeer for the more up-to-date method of travel because of the increasing demands made on him, is still an undecided question. The fact is the aeroplane has evidently caught his fancy and he is going to do a good deal of his work in Western Canada this year on the wing, so to speak. The Canadian Post Office Department announces that an air mail service will commence on December 10th, and continue until December 20th, between Winnipeg, Regina, Calgary, Edmonton and Saskatoon.

It is expected that thousands of Christmas letters will be carried by this new air mail service, which is being introduced at a time when the facilities of the post office are taxed to the utmost and the popular demand is for more speed in the conveyance of mails.

Man Not a Machine

A man is not entirely a machine. At some given moment, for no explainable reason, his brain may not function normally. It is a thing that happens to all of us. The difference is that in the case of a man engaged on ordinary work, the consequences may have only the slightest seriousness. With an engine-driver, a signalman, or some other railway servant, the consequences may be terrible.

Favor All-Metal Planes

The Air Ministry has decided that in future all Royal Air Force planes will be built of metal instead of wood. A new revolutionary method of constructing planes' wings has been discovered as the result of experiments with a monster 150-foot wing spread monoplane "inflexible" at Croydon airfield, it has been learned. The plane will carry ten tons of bombs.

Old Lady: "You can't be so poor, my good man, if you wear spats."
Tramp (sadly): "Ma'am, these are suede shoes with the soles worn off."

"Can you point out the oldest inhabitant in this village?"
"There isn't one. He died last week."—Moustique, Charleroi.

Incomes In the West

Within recent months numerous articles have appeared in print dealing with the progress and prosperity of the western provinces of Canada in which the wonderful fertility and productive capacity of the agricultural lands of the West, yielding hundreds of millions of new wealth annually, has been referred to, and the fact noted that in per capita wealth of the people these newer provinces of the West have outstripped the older provinces of the East.

A correspondent of a western farm journal, having read these articles, asks: "Why, with such tremendous accomplishments to our credit, have not western farm men and women acquired a per capita income that would permit us to maintain comfortable, nicely decorated, well equipped, modern homes with some time to play as well as to work?"

The question is a pertinent one, but, at the same time is not its general effect to create a false impression of actual conditions of farm life in the West? Nevertheless, it is deserving of an answer.

In the first place, it is well to consider that in no part of Canada, and probably in no place in the world, is the wealth of the country so evenly distributed among all the people as is the case in Western Canada. In Eastern Canada, and to an even greater extent in the United States and the older countries of the world great accumulations of wealth are possessed by a few individuals, families and corporations, while living in the same communities are hundreds of people, some in dire poverty, and others living from hand to mouth day by day, and denied the real comforts and joys of life. On the other hand, take Saskatchewan as an example,—the third most populous province of Canada, with now close to one million people, but which alone among the provinces is not credited with even one millionaire.

This is not to say there are no poor in Western Canada. Unfortunately there are. But the further fact is to be remembered that this West is a new country,—the newest in the civilized world,—and that tens of thousands of its people have only resided here a comparatively few years, most of whom came to better their condition and get a start in life which was denied to them in the lands from which they came. The fact that the per capita wealth of the West is high in comparison with the East, while the available per capita income to provide the necessities and pleasures of play time is alleged to be small, is accounted for because the per capita income has been invested in breaking new land, establishing new homes, securing the necessary equipment wherewith to develop farm holdings, make improvements, and, generally, building for the future. These investments represent per capita wealth, which is consequently high and steadily rising.

The true test to apply to Western Canada is: Are our farm homes becoming more comfortable, better equipped, more modern, as the years pass? Are the people who have come to this country decidedly better off, more comfortable and happy, than they were in the lands from which they came? Are they making real progress? Unquestionably, taking the country as a whole, such questions must be answered in the affirmative.

Finally, is it true that the per capita income of the Western farmer does not permit him and his family to enjoy the conveniences of, and pleasures of modern life? The telephone is one of the conveniences of modern life, and Western Canada ranks high among the countries of the world in the number of telephones in rural homes. The radio is another such convenience, a source of instruction and pleasure, and western farm homes are filled with them.

Or consider the automobile. Next to the United States with its many great cities, Canada surpasses the world in motor cars per capita, and these Western Provinces, mainly a rural people, possess as many cars in proportion to population as do the older provinces.

The rapidly increasing number of farm homes surrounded by trees and gardens testify to the fact that, as the pioneer days pass, incomes are sufficient to provide for the beautification of the home outside, and the same process is going on inside countless rural homes.

Nor would it appear from the ever increasing number of rural residents who visit the southern states, Eastern Canada, and the Pacific coast during the winter months, that the net income from farm operations is totally inadequate to provide some play time.

Nor must the fact be ignored that the provision of good roads, good schools, community halls, churches, and other conveniences of life, are, in the final analysis, provided,—either through taxation or voluntary contribution,—out of the per capita income. It has been sufficient to provide and maintain these things in this new country on a scale, and in a short space of time, unsurpassed anywhere.

Was Once New Caledonia

The mainland of what is now British Columbia was made a colony and called British Columbia in 1858. Prior to that it was known as New Caledonia.

One white person in every 11 in New Zealand now owns an automobile.

Girls' boarding schools are supplanting the private governess system in England.

Members In British House

The British House of Commons is made up of six hundred and fifteen members as follows, England, 492; Scotland, 74; Wales and Monmouthshire, 36; Northern Ireland, thirteen.

"Big Bill" Thompson seems to have faded completely from the picture Chicago newspapers are advertising English walnuts for Christmas.

Forty-seven theatres in Great Britain are equipped with "talkies."

When Food Sours

About two hours after eating many people suffer from sour stomachs. They call it indigestion. It means that the stomach nerves have been over-stimulated. There is excess acid. The way to correct it is with an alkali, which neutralizes many times its volume in acid.

The right way is Phillips' Milk of Magnesia—just a tasteless dose in water. It is pleasant, efficient, and

harmless. It has remained the standard with physicians in the 50 years since its invention.

It is the quick method. Results come almost instantly. It is the approved method. You will never use another when you know.

Be sure to get the genuine Phillips' Milk of Magnesia prescribed by physicians for 50 years in correcting excess acids. Each bottle contains full directions—any drugstore.

Gasoline From Shale

Find New and Important Reserve Sources Of Motor Fuel

Pressure-cracking tests on Canadian crude shale oil and on bitumen from bituminous sands show that these raw materials are important reserve sources of motor fuel. Gasoline yields of 18 to 20 Imperial gallons per ton of shale reported, and about 40 per cent. by volume of the dehydrated bitumen are reported. Other products from these oil and bitumen raw materials are appreciable quantities of good value coke and uncondensed gas of high calorific value. The quality of the gasoline from the shale oil may be considered good and that from the bitumen exceptionally good.

To Make Trial Flight

If Successful, British Dirigible Will Come To America

The first trial flight of the R-100, Britain's new giant dirigible, will be made to Cardington, Bedfordshire, it was announced. If the trip is successful the airship will proceed shortly to the United States.

It is believed that developments will follow which will revolutionize air transportation. Preparations for the flight have been kept secret but it is believed that they point toward the elimination of the use of petrol for driving the dirigible.

NEGLECTED ANAEMIA

Often Leads To a Decline—Enrich the Blood By Taking Dr. Williams' Pink Pills

In their early teens it is quite common for girls to outgrow their strength, and mothers should carefully watch the health of their daughters at this time, for it is when strength is sapped by rapid growth that anaemia develops. The first signs may be noticed by peevishness, languor and headaches. The girls grow pale, breathless and palpitation follow, with low spirits.

At the first symptom of anaemia mothers should act at once. Neglected anaemia often leads to decline, but if you see that your daughter's blood is enriched there need be no cause for anxiety. The finest blood enricher ever discovered is Dr. Williams' Pink Pills. The pure, red blood created by these pills will quickly banish all signs of anaemia. They will build up your girl's health and ensure her a robust girlhood. Give your daughter a course of Dr. Williams' Pink Pills now. Make her strong like thousands of girls who have been rescued from the clutches of anaemia by Dr. Williams' Pink Pills. Here is a bit of proof.

Miss Mary Venditti, Catamount, N.E., says:—"Three years ago while attending a convent, I studied very hard to graduate. The result was I became very nervous and got so thin and pale my teachers thought they would have to send me home. I took different kinds of medicine which my parents sent me, but my condition remained unchanged. At last one of my teachers gave me a box of Dr. Williams' Pink Pills, and I had hardly finished it when I could feel an improvement in my condition. I continued the use of the pills for some time longer, and I can hardly tell all the good they did me. I gained in strength and weight, and the color returned to my cheeks, and at the end of the term I graduated. I never fail to recommend Dr. Williams' Pink Pills to my friends and acquaintances when a tonic is needed."

You can get these pills from your druggist, or by mail at 50 cents a box from The Dr. Williams' Medicine Co., Brockville, Ont.

Anglo-Japanese Alliance

Will Not Be Revived, Says the British Foreign Office

The British foreign office, after the appearance of press dispatches in London newspapers from Japan discussing a possible Anglo-Japanese alliance and the position of the powers in China, let it be known that there is no question whatever of revival of the alliance, which was ended in consequence of the Washington conference.

As regards China, it was authoritatively stated that Britain, like the other powers, is pledged to consultation and co-operation.

Always Ready and Reliable.—Practically all pains arising from inflammation can be removed with Dr. Thomas' Electric Oil. Simply rub it on the sore spot and it is quickly absorbed by the skin. Its healing power is conveyed to the inflamed tissue which is quickly soothed. This fine old remedy is also a specific for all manner of cuts, scratches, bruises and sprains. Keep a bottle handy always.

There are 300,000 more men than women in Canada, 100,000 more men than women in Australia, and 26,000 more men than women in New Zealand, while in England there are over two million more women than men.

Check Colds with Minard's Liniment.

Jaya is actively developing its mining industry.

Nursing Record In Two Continents Hard to Equal

Nurse Waite of New Brighton writes: "While nursing in New York, in my early twenties, I was poisoned by food, my sister nurse recommended your wonderful Vegetable Laxative Pills. 'I am never without them and have prescribed them for thousands of my patients who were suffering with indigestion, gas and sour stomach, biliousness, sick headache and indigestion caused by constipation poisoning.' CARTER'S LITTLE LIVER PILLS All druggists—25c and 75c red pkgs.

Meat Production In Canada

Increasing Number Of Live Stock Now Slaughtered Under Inspection

Meat production in Canada is making a steady growth. According to the report of the Veterinary Director General for the past fiscal year there were slaughtered under the supervision of the Meat Inspection Division 1,147,255 cattle, 608,805 sheep, and 2,596,138 hogs. This is an increase of 3.46 per cent. of cattle, 9.71 per cent. of sheep, and almost 2 per cent. increase of hogs. The Province of Ontario is well in advance of any of the other provinces in the production of these meat producing animals. Of cattle Ontario supplied 36.74 per cent., of sheep 45.87 per cent., and of swine, 47.09 per cent. Quebec came second with 28.24 per cent. of the cattle, 26.31 per cent. of the sheep, and 15.87 per cent. of swine. Manitoba occupied third position in providing 17.49 per cent. of the cattle, 7.30 per cent. of sheep, and 15.03 per cent. of the swine. Manitoba was followed in order by Alberta, British Columbia, Saskatchewan, New Brunswick, Prince Edward Island and Nova Scotia.

These figures do not cover a considerable number of live stock of the different kinds slaughtered by butchers and others for local trade.

The Oil For the Athlete.—In rubbing down, the Athlete will find Dr. Thomas' Electric Oil an excellent article. It renders the muscles and sinews pliable, takes the soreness out of them and strengthens them for strains that may be put upon them. It stands pre-eminent for this purpose, and athletes who for years have been using it can testify to its value as a lubricant.

Soldier Settlement Board

Over Million Acres Of Vacant Crown Land Taken Up In Alberta During 1928

According to a report compiled by the District Superintendent of the Soldier Settlement Board, 1,106,400 acres of vacant crown land were settled in central and northern Alberta during 1928. Of this acreage 4,131 quarter sections were filed on in the Peace River country, and 1,456 homesteads and 78 soldiers' grants were taken out in the Edmonton District.

Asthma Overcome. The triumph over asthma has assuredly come. Dr. J. D. Kellogg's Asthma Remedy has proved the most positive blessing the victim of asthmatic attacks has ever known. Letters received from thousands who have tried it form a testimonial which leaves no room for doubt that here is a real remedy. Get it today from your dealer.

Nickel ore from the deposits near Sudbury, Ontario, is now being raised and smelted at the rate of 1 1/4 millions tons per year and the ore reserves are placed at over 150,000,000 tons.

Wise mothers who know the virtues of Mother Graves' Worm Expeller, always have it at hand, because it proves its value.

Taylor: "There's nothing like an appropriate setting, is there?" Bailey: "I suppose that's why the plants in a hotel lobby are always palms."

Minard's Liniment for Grippe.

The majority of the people in the world will be speaking English in 50 years' time, according to one expert.

Sneezing?

At the first sneeze inhale Minard's. Prevents colds, Also good for bruises and sprains.

Alberta Hail Insurance

Companies Ask For 48 Hour Time Limit In Accepting Policies

Relief in the form of amendments to the hail section of the Insurance Act is being asked by the hail insurance companies in Alberta, the amendments to be enacted at the next session of the Legislature, according to Henry Brace, Superintendent of Insurance in the Provincial Government.

There are operating in the Province at present more than 50 companies handling hail insurance and their request for relief has been occasioned by the losses caused by hail during the last summer amounting in Alberta to approximately 120 per cent. of premiums. In Saskatchewan conditions were little better, losses amounting to 92 per cent. of the premiums.

The main feature of the requested and suggested amendments is the time limit of acceptance or rejection of a policy be extended from 24 to 48 hours.

At present a farmer can wire or phone his desire for coverage to the insurance company and the coverage commences at that time. The companies want to have 48 hours elapse between the time of filing notification for coverage and the time at which the coverage will be either accepted or rejected. By this means it is hoped to overcome any suggestion of delaying the placing of insurance until the last possible moment.

The present law provides that it is optional with the companies whether they accept applications by wire or telephone and it is understood that they have decided to refuse any applications made by this method.

Speaking in respect to the amendments, Mr. Brace said that it was his opinion that farmers must play the game with the companies if they desired them to remain in the field and that business should not be confined to a six weeks' period in the middle of the summer, but should be spread over the entire growing season.

Recipes For This Week

(By Betty Barclay)

MARSHMALLOW SURPRISE

1 package chocolate junket.
1 pint milk.
1/2 pound marshmallows.
1 cup confectioners' sugar.
1/2 cup boiling water.

Prepare chocolate junket according to directions on package. Cut marshmallows in pieces and melt in double boiler. Dissolve sugar in boiling water and add to marshmallows, and stir until thoroughly blended. Turn into a bowl and cool before serving on top of cold chocolate junket.

PENNSYLVANIA COLE SLAW

Put two pounds of firm, crisp cabbage through the slicer. Add a dressing made from:

2 eggs beaten light.
1 cup cider vinegar.
1 cup water.
6 scant teaspoons sugar.
Salt to season.
Butter size of walnut.

Cook slowly for few minutes until thoroughly mixed. Stir tablespoonful four thinned in water into mixture and cook for five minutes over slow fire. Cool, thin with cream, then pour over sliced cabbage and mix thoroughly. Finely-chopped cabbage may be used instead of sliced.

Courtesy Rewarded

While the consciousness of doing right is reward enough, it is interesting to note that a dividend in cash has come to one who expected it the least. A tramcar conductor, of Salem, Massachusetts, for many years had been helping an elderly woman on and off his car. When her will was examined after her death recently, it was found that the woman had left the conductor \$25,000.

Canadian Apples In Britain

Canada's apples are becoming more popular in the British Isles. Exports so far this season, according to figures published by the fruit branch of the Department of Agriculture, amount to 183,062 barrels and 515,322 boxes. This is a substantial increase over the totals of 143,012 barrels and 211,943 boxes for 1927, and 160,144 barrels and 403,025 boxes for 1926.

A vacant plot of land in Queen street, the chief shopping centre of Cardiff, Wales, has changed hands at a price said to approximate £103,000 per acre.

The rust bill of the world has been estimated at \$5,000,000,000.

Be sure you're right, then check your figures.

Civic Land Department

City Of Calgary Sells Land To Value Of \$400 In Month Of October

Land sales totalling in the neighborhood of \$85,000 were negotiated by the civic land department of the City of Calgary during the month of October, representing the greatest total of new sales ever recorded since the department was opened in 1922. The total sales of the department for the year are expected to grow into an enormous figure and, with millions of dollars worth of land still available for sale, this department has become a permanent part of the city service.

More Potatoes Grown This Year

Canada's potato crop will amount to 54,585,000 hundredweight this year, according to a preliminary estimate of the Dominion Bureau of Statistics. This is an increase of 8-127,000 hundredweight as compared with last year's crop of 46,458,000 hundredweight, an increase of 3,577,000 hundredweight over the five-year average.

LONG SLEEP MAKES BABY HAPPY AGAIN

"Our baby kept waking us several times a night, until we started giving him a little Castoria after his last nursing," says an Iowa mother. "He slept soundly from the first night and it made him look and feel worlds better." Baby specialists endorse Fletcher's Castoria; and millions of mothers know how this purely vegetable, harmless preparation helps babies and children, with colic, constipation, colds, diarrhea, etc. The Fletcher signature is always on the wrapper of genuine Castoria. Avoid imitations.

Geodetic Surveys

The principal function of the Geodetic Survey of Canada, which is a subdivision of the Surveys Bureau of the Department of the Interior, is to furnish latitude, longitude, and elevation data for all surveying and mapping operations in the Dominion.

Miller's Worm Powders will not only expel worms from the system but will induce healthful conditions of the system under which worms can no longer thrive. Worms keep a child in a continual state of restlessness and pain, and there can be no comfort for the little one until the cause of suffering be removed, which can be easily done by the use of these powders, which are very effective.

Young Lady (to old salt) — Have you ever seen the sea serpent? Old Salt—No, Miss, I'm a teetotaler.

When Holloway's Corn Remover is applied to a corn it kills the roots and the callosity comes out without injury to the flesh.

There are now, on an average, six times as many divorce cases brought before English courts as there were in pre-war days.

Britain claims to be the world's workshop for aircraft, ships and locomotives.

ECZEMA BROKE OUT IN RASH

Child Very Cross and Fretful. Cuticura Heals.

"When my little sister was four months old eczema broke out in a red rash which later formed blisters. It itched and burned causing her to scratch. She was very cross and fretful, and used to lay awake half the night. The trouble lasted six months."

"A friend recommended Cuticura Soap and Ointment so my mother purchased some and after using five boxes of Cuticura Ointment and three cakes of Cuticura Soap all signs of the trouble disappeared. She was healed." (Signed) Mrs. Thomas Canning, Clarksville, N.S. Use Cuticura Soap, Ointment and Talcum for daily toilet purposes. Sample Book Free by Mail. Address Canadian Depot: "Hankins, Ltd., Montreal." Price, Soap 25c, Ointment 15c and 50c, Talcum 10c. Cuticura Shaving Stick 25c.

British Youths For Saskatchewan

One Hundred Boys Will Arrive From Britain In the Early Spring

Saskatchewan has now entered into a plan initiated by Lord Lovat, Under-Secretary of State for Dominion Affairs and Chairman of the Overseas Settlement Committee in Great Britain, by which one hundred boys will arrive in the early spring of 1929, all chosen by the Empire Settlement Committee. They will be 16 and 17 years old and the Boy Scout type. At a hostel at the University of Saskatchewan, they will be received, instructed, supervised, and given after care, the Imperial Government paying one-half the cost, and the Federal and Provincial Governments paying one quarter each.

Nuisance Has Become Asset

Australia Now Making Millions Out Of Rabbit Skins

The prolific and predatory rabbit in Australia has been turned into a notable wealth producing asset.

Five years ago there was not a machine in Australia to convert rabbit skin into what is known as "coney." Today a hundred concerns employ about fifteen hundred persons and \$2,500,000 capital in the production of fur goods, creating a new local industry that is worth millions.

The fur garment of Australia has now been made a popular article instead of a costly luxury.

Mental Gymnastics

She (sharply)—I trust you're coming home tonight promptly at 9 o'clock.

He (hesitatingly)—I had thought about 10—

She (interrupting very sharply)—What did you say?

He (quickly)—About ten minutes to nine.

Only the well-to-do can afford to be slow pay.

EVEREADY Layerbilt

Radio "B" Power in its highest development—power that gives continuous, hum-free reception from both local and distant stations. Economical power, too. You'll be agreeably surprised how long Eveready Layerbilt "B" batteries will operate your set without replacement.

Ask your dealer. He will tell you that his customers come in and ask for Eveready Layerbilts.

Arrowwood Locals

Clarence Norton is recovering from
a very serious illness.

Fred Jones was in Calgary this
week attending the Poultry Show.

The Hockey Club will hold a dance
in the A. C. S. Hall, Arrowwood, next
Friday evening.

The curling rink is being flooded
and it is expected that it will be ready
for curling shortly.

The Women's Institute held a suc-
cessful whist drive and dance on Tues-
evening at the C. P. R. station.

Mr. and Mrs. W. C. Lyle were in
Calgary this week attending the Poul-
try Show. They have a number of
turkeys entered in the Show.

L. W. Barrett has purchased two
business lots from Lyle Bros. recently.
It is reported that a big store building
is to be constructed on this property.

Mr. and Mrs. John left yester-
day for an extended visit to
land. While they are away they in-
tend to visit the battle fields of France.

In a report received from Mr. E. C.
Bowman on the car accident which he
had in California recently he says that
he was run into by a Chevrolet coupe
at Pomona, both cars being damaged
badly. Miss Mabel Eisenbise, for-
merly of Arrowwood, received serious
cuts, while Merlin Eisenbise had his
arm broken. Mrs. Bowman received
injuries to her back. Mr. Bowman
says it is a wonder that no one was
killed.

REID—GIBSON

The wedding took place in Medicine
Hat on Thursday, November 29th of
Sam Reid, of the United Grain Grow-
ers' elevator staff, to O'Dell Gibson of
Medicine Hat. They will make their
home in Arrowwood.

Annual Meeting of Arrowwood Curlers

The Curling club held a well at-
tended meeting last Friday evening.
The fees for the season were set at
\$10 for men and \$3 for ladies.

It was decided that the ladies would
curl with the men's rink in the square
draw.

The curling rink is to be closed dur-
ing the first draw on nights of sen-
ior hockey matches.

Friday nights will be left open for
games with outside rinks, etc.

There were only two applicants for
the position of caretaker for the rink
f. Mackie and Paul Norton. Paul
Norton was hired.

They elected the following officers
for the coming year:

President—L. F. Christenson.
First Vice-Pres.—Chris McIrvin.
Second Vice-Pres.—R. R. Saunders.
Sec-Treas.—A. J. Troy.
Chaplin—Rev. R. C. Martin.
Patron—Paul Norton.
Executive—C. W. Brubaker, R. H.
Bishop, B. Moir, Clate Williams and J.
Mackie.

The following were chosen as akip
for the coming season:

A. J. Troy, L. F. Christenson, B. R.
Saunders, L. L. Beagle, L. Lewendon,
C. McIrvin, R. Moir, Fred Jones, B.
G. Bell, J. Hesketh, Tom Board, Chas.
Taylor, J. Mason, C. Williams, J. Mac-
kie, Jr., Fred Miller, James Ward, B.
Bishop, J. Beagle and J. Williams,
Shouldice.

ARROWOOD HOCKEY LOOKS PROMISING

A very enthusiastic and representa-
tive meeting of the Hockey Club was
held on Friday November 30, when
officers for the present season were
elected and the financial report of the
former year's business was read and
approved. A rather heavy deficit
caused no doubt by the very unfavor-
able weather conditions of last will
face the club this year but with the
enthusiasm and support that was
shown at the meeting this will soon be
overcome.

The officers elected at the meeting
consisted of:

Mr. Ed. Lewendon, president.
Dick Lyle, vice-president.
A. J. Troy, sec-treas.

R. R. Harper manager of the team.

The proposition of interviewing the
Rink committee in respect to turning
over the supervision of the skating
rink to the hockey club was left to a
committee appointed for the purpose.
In case the rink ownership proved to
be favorable to the suggestion a com-

mittee was appointed to oversee the
flooding of the rink and the upkeep
throughout the winter. Among those
appointed were Mr. Smith, Mr. Hale
and Mr. Eaton.

An entertainment funds committee
was also chosen to be composed of the
following: Smith, C. Culp, Hale
Service and D. Lyle. This committee
decided at once to hold the first Hoc-
key club dance of the season at the
school hall on Friday December 14th,
for which tickets are now on sale and
the support of the entire community
is requested.

Queenstown Locals

A. Soli's new home is nearing com-
pletion.

R. L. Campbell spent the week-end
in Calgary.

Mrs. Maxwell was in Calgary over
the week-end.

Stewart Anderson was a Calgary
visitor this week.

W. Brown spent several days in
Calgary last week.

Saturday on an extended visit to the
Old Country.

V. Bertrand, of Milo, attended the
Pool convention in Calgary last week.

Austin Brown and J. Tucker, are
contemplating opening an open-air
skating rink in Queenstown.

Miss Gladys Soli, who is on the staff
of Thompson's store, at Milo spent
the week-end in Queenstown.

Mr. Betton, of Majorville, left last
Stewart Henderson and Hans Han-
son were week-end visitors to Cal-
gary.

B. R. McBride, Miss Frances Mc-
Bride, Miss MacAckille, the Swastika
school teacher and George Wilkinson
were in Calgary over the week-end.

Carl Herman and family are leav-
ing to spend the winter in California.
Mr. Herman brought in a cheque for
\$25 for the new Community Hall be-
fore leaving.

Chas. Bidoux of the United Grain
Growers elevator staff at Shouldice
and O. Johnston of the McLean's ele-
vator staff were in Calgary last week.

The Queenstown W. I. will hold a
whist drive on Monday December 17,
to start at 8 o'clock and followed by
a Jitney dance, and supper, cafeteria
style. To be held in the new Queens-
town Hall.

There will be a big institution meet-
ing of the Oddfellows lodge in Milo on
December 14th, in the evening. The
degree teams are coming from Vulcan
and Lomond and it is expected that
there will be quite a number put
through.

The opening dance of the new Com-
munity Hall proved to be a great suc-
cess. About 175 couples were pre-
sent from many points including Gle-
ichen, Arrowwood, Milo, Shouldice
Gassano, Cluny, Vulcan and Lomond.
The music provided by the Vulcan Red
Birds was of the best. The floor
was in good condition and the crowd
was in a mood to make the occasion
an event. A turkey and chicken
supper was given by the ladies of the
community at large in the basement
of the hall, starting at 11 o'clock, and
there was an abundance of everything.
Dancing continued until 3:30 when the
strains of Home Sweet Home brought
the dance to a close.

The dance was a great financial
success. Some \$480.00 over and a-
bove expenses was realized and this
goes toward paying for the cost of
the hall.

The picture show "Two Arabian
Nights", shown at 4 p.m. and again
at 8 in the evening was a fine comedy,
and brought shouts of delight from
the audiences on hand.

Admiring comments on the new hall
were many from both local residents
and visitors alike. Much credit is
due. Mr. S. T. Johnston for the de-
sign of the hall and to Contractor
Charles Thompson of Gleichen for the
execution of the work.

There is a large debt still to pay on
the hall and furnishings but the whole-
hearted support of the district in this
community venture is expected to re-
duce the amount rapidly.

Churchill Route To Be Economic Factor In Western Development

Prince Albert.—Savings running into millions of dollars annually will be made possible to the general public and producers of Saskatchewan as result of the opening of the Hudson Bay Railway, according to members of the Saskatchewan Traffic Council who, in an all-day session, here, discussed the effects of the Churchill route from a variety of aspects.

Making their deductions from experimental and tentative tariff schedules the different speakers who contributed to the discussion forecast great stimulation and development of production in the province and forecast tremendous savings in shipments of grain and live stock and of the produce of the packing houses, dairies and other industries.

In addition to discussing the effects of the opening of the Hudson Bay route, the council dealt with the position of the express rates case now before the Board of Railway Commissioners and also considered the rates on general merchandise from Eastern Canada to Melville and to Prince Albert.

Representatives were present from the member Boards of Trade of Regina, Moose Jaw, Saskatoon, Swift Current, Yorkton, North Battleford, Weyburn, Estevan and Prince Albert, while two delegates were in attendance from Melville who, on behalf of the Board of Trade of that town made application for and were accepted into the membership of the council. Geo. H. Smith traffic manager and rates expert who represented the Provincial Government, summarized the general situation and the favorable effect of the route on the rate structure.

Saved Children From Drowning

Three Rescued From Water By Seventeen-Year-Old Boy

Ottawa, Ont.—Irvin McNeely, 17, saved three small children from drowning in Browns Inlet here after diving, fully clothed, through a thin coating of ice into the frigid water.

The children, none of them over five years of age, were playing with their sleighs when the ice gave way. Mr. Neely was driving past the Inlet when he noticed the children. He immediately leaped from his seat and dived into the pond.

He managed to save all three of the children and finally made his way to shore. Others attracted to the scene by this time lifted the young hero out of the water. He was near exhaustion.

Would Hold Navy Parley In Canada

Might Help Solve Problems Says U.S. Senator

Washington.—Chairman Britten, of the House Naval Affairs Committee, thinks he has a plan that would help the United States and Great Britain to arrive at an understanding on the equality of sea power and naval problems generally.

He has put forward his ideas in a cablegram to right Hon. Stanley Baldwin, Prime Minister of Great Britain. He suggested that members of the House Naval Affairs Committee and a committee from the British Parliament hold a joint meeting in Canada after March 4.

Death Of Mrs. Calder

Winnipeg, Man.—Mrs. Johanna Calder, mother of Senator J. A. Calder, of Regina, and widow of the late James Calder, died here Nov. 29. Mrs. Calder was 91 years old, and had been a resident of this city for 46 years, coming here with her husband from Oxford county, Ont.

Favors Naval Equality

London, Eng.—Viscount Cecil, of Chelwood, favored absolute mathematical equality in both tonnage and guns between the British and United States navies, in an address which he made before the parliamentary committee of the League of Nations Union.

Rebuilding Saw Mill

Crooked River, Sask.—Reconstruction of the Saskatchewan Lumber Company sawmill, now owned by the R. F. Harris Lumber Company, of Winnipeg, will soon be completed. The mill has been idle for over fifteen years.

W. N. U. 1762

United Grain Growers Ltd.

Organization Shows a Very Substantial Year's Business

Copies have been received of the balance sheet and the annual report presented at the twenty-second annual meeting of United Grain Growers Limited, held in Calgary last week, and these show that Company to be in a highly satisfactory position.

The profit and loss account for the fiscal year ending August 31st, 1928, showed gross earnings of \$3,547,315.00 against expenses of \$2,141,068.00. Interest on bonds, mortgages and debentures amounted to \$193,141.00, depreciation to \$298,273.00, leaving the net profit, subject to government taxes at \$714,831.00.

The surplus carried forward from the previous year amounted to \$556,782.81, and the addition of the year's profit made a total of \$1,271,613.00. From this deductions were made for shareholders' dividend at 8 per cent. per annum, \$243,156.00; for patronage dividends, \$114,756.00; and the general reserve \$185,011.00, and the depreciation reserve \$226,315.00, leaving to be carried forward \$502,373.31. Current assets, amounting to \$5,873,102.00, were more than double current liabilities of \$2,925,134.00. Capital assets total \$9,115,243.00, against which there is provided a depreciation reserve of \$2,300,000.00, while the capital liabilities amount to \$1,563,554.00. Paid up capital stock amounts to \$3,096,695.00, while shareholders' capital and surplus amounts to \$5,299,068.00.

The annual report showed that the Company, besides completing new terminal elevator at Port Arthur, the capacity of which is 5,500,000 bushels, and which was under construction at the time of the last annual meeting, had made considerable progress in the development of its country elevator system. Between September 1st, 1927, and August 31st, 1928, 70 country elevators were built and purchased, with a number of others placed under construction since that date. At 11 points elevators were torn down and replaced with modern houses, while 27 elevators were sold during the year. Elevators are now operated at 413 points in the three prairie provinces.

Winnipeg representatives returning from the annual meeting, report it to have been one of the most successful and satisfactory in the history of the Company. Not only is the Company in a better financial position now than it has ever been, but, judging from expressions of opinion on the part of delegates, it has never stood higher in the general regard of western farmers. The delegates showed their satisfaction and confidence by prompt acceptance of the reports presented to them and by re-election on the first ballot of the four retiring Directors. The whole meeting indicated complete confidence and satisfaction in the conduct of the business by the Management and the Board of Directors.

Soviets Elect Woman Mayor

Factory Worker Now Head Of Large City In Republic
Gomel, White Russia, U.S.S.R.—A woman factory worker, Tatiana Prusakova, has just become mayor of Gomel, one of the largest cities in the White Russian Soviet Republic. Since childhood Prusakova worked in the local match factory. After the Revolution she became active in the Soviets, and now she has been elected President of the Gomel Soviet, a position corresponding to mayor or burgomaster.

Deadly Level Crossing

Mortlach, Sask.—Two farmers of the Secretan district, Edwin Gunderson and A. J. Toner, bachelors, lost their lives at Bucknell's Crossing, two miles east of here, when the Chevrolet sedan Gunderson was driving, was struck by an eastbound C.P.R. freight train. Gunderson was killed outright, and Toner lived about two hours, dying on passenger train No. 2, as he was being rushed to Moose Jaw Hospital.

Famine In China

London, Eng.—The Daily Express faking correspondent says that an urgent famine situation has arisen. With 20,000,000 destitute and starving people in seven provinces of Northwestern China, governors of the provinces fear uprisings unless relief is immediate.

Gathering Data Of Industries In West

Plan To Divide Prairies Into Sections For Investigation

Winnipeg, Man.—Acting on the suggestion of the Manitoba Industrial Development Board, the Natural Resources Intelligence Service, at Ottawa, has prepared a plan for gathering data relative to the logical industrial progress of the prairie provinces that will be submitted to boards of trade and other interested bodies.

The Ottawa suggestion is that the West be separated into five leading manufacturing centres for the purposes of the investigation and procedure on co-related lines, the first group consisting of Winnipeg, the second of Moose Jaw and Regina, the third of Prince Albert and Saskatoon, the fourth of Calgary, Lethbridge and Medicine Hat, and the fifth of Edmonton.

Ottawa suggests that the following circumstances in each of the groups be investigated: Manufacturing facilities, development of related industries, natural resources adjacent to the centres, duplication of production, suitable new industries, transportation and reference to the effect of the Panama Canal route to the Western market, new marketing methods, branch plants, and industries chiefly affected by transportation.

BRITISH NAVAL ACCORD WITH U.S. MAY BE REACHED

London, Eng.—Viscount Cecil, of Chelwood, in a speech before the League of Nations parliamentary committee of the House of Commons, said that he believed a naval agreement with the United States might be reached.

"The fundamental difficulty encountered in every disarmament discussion rests on the fact that the problem is treated too little as a matter of large politics and too much as a matter for experts with whom the whole discussion is based and on assumption of war and attack," he said. On this basis, no progress is possible.

Lord Cecil said the first step in any general disarmament agreement must be an accord between the United States and Great Britain.

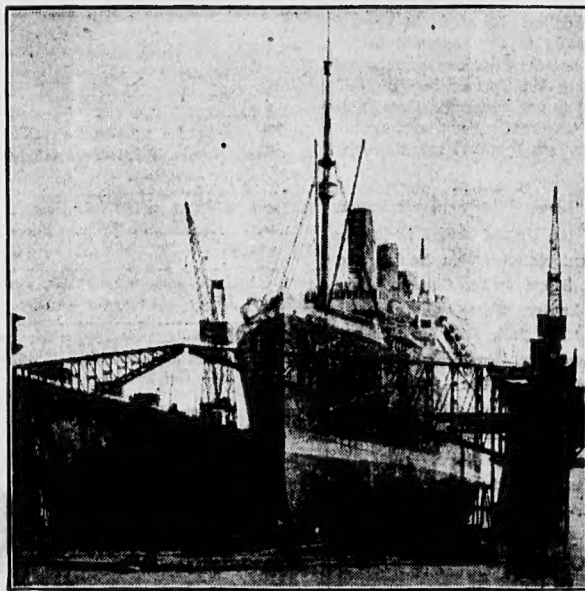

"It is manifestly to our interest to accept without reserve the United States absolute parity," he asserted. "I favor absolute and complete mathematical equality both in tons and guns. I believe on this basis a full agreement can be reached." He then turned to the development of such an accord into a world-wide agreement.

Lieut.-Commander Joseph M. Kenworthy, Labor member, will ask Prime Minister Stanley Baldwin in the House of Commons what reply he is sending to the suggestion of Fred. A. Britten, for an Anglo-American parley in Canada on the cruiser problem.

Manitoba Resources

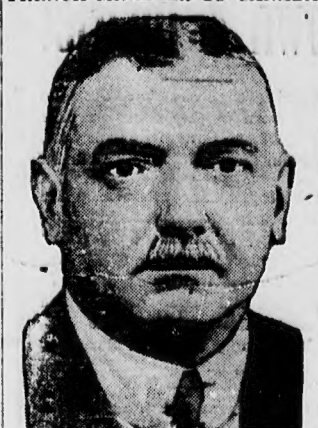

Ottawa.—The first public hearing in connection with the return of the natural resources to the province of Manitoba, will be held in Ottawa on February 10, 1929.

An Empress on Holiday

Here the Canadian Pacific Empress of Australia, having completed her last trip of the season to Quebec, is seen in the floating dry dock at Southampton where she is receiving a first coat of paint prior to setting out on a cruise of the world. Some idea of the great size of the Empress may be gained through comparing her with the two men in the small boat tied to the dock in the foreground.

FRENCH MINISTER TO CANADA

M. Jean Knight, new French minister to Canada, who has arrived in Ottawa and has presented his credentials to the governor-general.

Alberta's Resources Up For Discussion

Conference In Ottawa For December 12 Has Been Arranged

Edmonton.—Natural resources and Alberta's chances for getting them will be up for consideration again on December 12, in Ottawa, Premier Brownlee has received advice from Hon. Mackenzie King that that date will be most suitable from his point of view and he has replied accepting it as satisfactory also to the Alberta side of the case. Hon. R. G. Reid, provincial treasurer, will accompany the premier to Ottawa for the conference.

That something definite and perhaps final will result from the round table discussion of the question, after a year's rest, is Mr. Brownlee's hope.

The idea, he takes it, is to canvass the situation thoroughly and arrange the basis upon which a settlement can most advantageously be effected. From the province's standpoint it is thought some help toward such a settlement has been given by the disposition that has been made of the Manitoba case.

Say Complaint Justified

Better Accommodation Needed For Horses At Winter Fair

Toronto.—Exhibitors and management at the Royal Winter Fair are unanimous in the opinion that the complaint of Professor W. L. Carlyle, manager of the "EP" ranch, who refuses to show any of the Prince of Wales' horses at the fair until new accommodation is provided is justified, according to The Toronto Telegram. While the fair management are aware of the poor housing, they say they have no alternative accommodation to offer, but it is hoped, with the aid of the Federal and Provincial governments, that something will be done in the immediate future to alleviate the situation.

Will Lose Franchise

Toronto.—Any person whose name is included in the list of tardy city income tax payers in Toronto will not be able to vote in the municipal elections on New Year's Day unless he can produce his tax receipt, according to a ruling by City Clerk Somers. There are more than 20,000 persons who have not yet paid their tax.

Buy's Own Exhibit

Herman Trelle Pays \$100 Price For Half Bushel Of Wheat

Toronto.—Four hundred dollars represents a stiff price for a half bushel of wheat, but that is what Herman Trelle, the wheat and oats king from Wembley, Alta., paid at the Royal Winter Fair for his own sample prize-winning half bushel during the auction sale for the grain samples which scored the ribbons.

In his capacity as oat king, Mr. Trelle also paid \$100 for his second prize oat sample, and the same for a half bushel of red-ribbon chancellor peas.

Under the conditions of entry, prize exhibits must be sold, but there is nothing to prevent a prize winner from bidding on his own exhibits. The money from the sale is given to the exhibitor, less a commission taken by the Winter Fair.

Ask For Protection

National Dairy Council Wants Protection For Dairy Industry

Toronto.—The National Dairy Council, of Canada, at the concluding session of the annual meeting here, passed a resolution reaffirming the council's stand in asking adequate protection for the Canadian dairy industry. J. A. Caulder, Regina, president, declared that the dairy industry of Canada should be given a fair chance against all competitors and he contended that the industry was not being fairly treated at the present time.

A resolution favorable to the compulsory pasteurization of milk in cities, towns and villages was unanimously adopted while a policy for selected registration of dairy cattle and milk recording also was endorsed.

PROGRESS MADE IN PAYING OFF NATIONAL DEBT

Vancouver.—Hon. James A. Robb, minister of finance, dealt with the progress of Canada in paying off her national debt during the course of an address before the Canadian Club here. Mr. Robb said that during the five-year period ending March 31, this year, Canada had reduced her debt by \$138,000,000 or at the rate of more than \$85,000 per day.

In October of this year, Mr. Robb continued, \$53,000,000 indebtedness had been retired from current revenue. Next year he hoped to retire \$60,000,000 by the same method.

"We want to make a further tax reduction, but I am not going to say anything more about that just now," the minister remarked.

The demand for money for roads and other expenditures, added the minister, had led to some duplication in taxation between provinces and the Dominion. This was particularly true in British Columbia. Reduction of taxation in order to clear these fields was desirable.

In reference to foreign trade, Mr. Robb said Canadians should endeavor to get their products into the markets of the world and that the facilities for doing this were greater in Canada than in the United States. The United States had not as good a transportation system from its interior to its world ports as had Canada.

As for British Columbia there were few ports, he stated, that were as well situated for world trade as those of this province. Canada last year had traded with 114 nations and the port of Vancouver with 51 nations, an enviable record.

The minister added that most important to the expansion of the Dominion's foreign trade was the development of world friendships. Although foreign trade was desirable, trade within the empire was even more important. Inter-empire trade could not be developed by singing "Tipperary" and the British ships could not be kept on the seas by "Rule Britannia." Something more practical must be done, the speaker declared.

"Canada need have no forebodings about her future," Mr. Robb said. "It is true that we have a big debt. But we must remember that Canada was in the war from the drop of the hat. We have asked no favors from anybody. There were difficult times for any predecessors during the war and during the period immediately following it, but in 1924 we turned the corner."

"We might well unite on a policy of saying all the good things we can about our country. The days of sailing ships are gone and we must remember that what we say today will be read by the world tomorrow."

Cheaper Ocean Rate Urged To Encourage Immigration To Canada

Assist Ship In Distress

Aid Reaches Stricken British Freighter On Pacific

Seattle.—Radio advices received here said that one of the six vessels routing to the assistance of the helplessly stricken Chief Maquila, had reached the stricken craft and was standing by. The Chief Maquila, formerly the M.S. Dollar, will probably be towed to Dutch harbor, Alaska.

Listing badly, her engine room flooding and her pumps useless, the freighter was completely out of control, of her eight British officers and her crew of 32 Chinese. The 8 o'clock radio advices presumed that the Japanese steamer Yogen Maru was standing by, although previous messages placed the steam schooner Montreal Maru 50 miles closer to the Maquila.

'Plane Industry Growing

Will Reach High Mark In Production In U.S. Next Year

Chicago.—The aeroplane industry will reach the \$100,000,000 mark in production in 1929, the greatest in its history, the Aeronautical Chamber of Commerce reported in a survey made public here.

Between 10,000 and 12,000 aeroplanes will be manufactured next year, Luther K. Bell, secretary of the organization, which represents more than 95 per cent. of the aircraft manufacturing and transport operators in the United States, said.

More than 4,000 planes with a total market value of \$75,000,000 will be manufactured in 1928, Bell estimated.

Will Develop Produce Markets

Victoria, B.C.—Development of a marketing branch of the department of agriculture which will aim to develop new and existing markets and give farmers accurate information of existing markets was the announcement of Premier S. F. Tolmie, who declared that the first work of this department would be to begin a complete survey of all markets available and the choosing of the best men for such work.

Eastern Dog Derby In February

Winnipeg.—The Eastern International dog sled derby will be held at Quebec, February 21 to 23 inclusive, according to advice received from A. O. Seymour, general tourist agent of the Canadian Pacific Railway. The entry list will remain open this season until a few days prior to the start of the derby.

SUNDAY SCHOOL LESSON

DECEMBER 9

PAUL GOES TO ROME

Golden Text: "I am not ashamed of the gospel: for it is the power of God unto salvation to everyone that believeth."—Romans 1:16.

Lesson: Acts 27:1-28:31; Romans 1:8-15; Philippians 1:7-14.

Devotional Reading: Psalm 91:9-16.

Explanations and Comments

The End Of The Journey To Rome, verses 11:15.—Three months after the shipwreck off the island of Malta, when navigation began in the early spring, Paul and the rest of the company set sail in a ship from Alexandria, called "The Twin Brothers" from the sign painted on its prow. They stopped for three days at Syracuse, on the island of Sicily, and for a day at Rhegium, on the Italian coast. Puteoli, the corn mart of Italy, on the Bay of Naples, was the destination of the ship. There a week was spent. News of Paul's coming to Rome reached the Christians there, and two companies journeyed over the Apennine Way to meet him, one coming as far as the Market of Appius, forty-three miles from Rome, and the other to the Three Taverns, an inn ten miles from Rome. Their coming greatly rejoiced and encouraged Paul: he thanked God, and took courage.

"It was midway between a shipwreck and a prison; Paul has been in peril of his life, and he was going into greater peril. He had barely escaped the storm to fall into the hands of Caesar. In this sad plight, a little group of Christian brethren in Rome, having heard that Paul was coming, went out to meet him; and his heart filled with gratitude. When he saw them he thanked God and took courage. Thus it is that they who have lost almost everything, count up the gifts of God which still remain, and are surprised to find them so many and so precious. They appreciate them the more highly for their fewness. Some people have so much to be thankful for that they are not very thankful for anything."—George Hodges.

Ottawa, Ont.—Negotiations for a cheaper ocean rate for British immigrants to Canada are still being carried on in London, and a decision is expected within a few days, officials stated here. While it was admitted that the discussions were taking longer than was expected, it was denied that any deadlock had been reached.

A ten-pound third class rate is being urged on the steamship companies by representatives of the British and Canadian governments. This would apply to all those who cannot qualify for the two-pound rate for household and farm workers, under the empire settlement scheme.

The negotiations have drawn attention to the fact, immigration officials point out, that since the war rates to Australia have doubled, while fares to Canada have advanced more than three times. The present rate to Australia is £38 as compared with £18 before the war. In the same period, the rate to Canada has increased from £6 to £18.15s. It was pointed out that the present rate to Australia is 1.6 cents per ocean mile, while the fare to Canada is 3.3 cents. It was explained that neither government has control over rates and the negotiations are merely in the way of persuading the transportation companies to consent to a reduction in order to stimulate migration.

Assistance Asked For British Miners

Nearly Three Hundred Thousand Are Out Of Employment

London, Eng.—The plight of unemployed miners in Britain has reached such a serious stage that all political parties are viewing the matter with the utmost concern and the Miners' Federation has issued an appeal for assistance. Nearly 300,000 mine workers are out of employment and of these 200,000 to 250,000 constitute a permanent unemployed surplus.

With their wives and children, it means that over a million face hunger unless help is speedily forthcoming.

The Miners' Federation, in its appeal says "the mining population is faced with a cataclysm comparable to the destruction wrought by some great earthquake or other giant disturbance of nature. Some of the miners have exhausted their unemployment benefit and are being supported by grants from the poor law, which naturally are small, and the courts are filled with stories of hungry miners tramping the countryside in search of work."

Enlarging Service Bulletin

Victoria.—The provincial government's public service bulletin will be enlarged so as to keep the people of British Columbia informed of the working of government departments and of industrial and business developments. Hon. W. G. Chelly, minister of finance, has announced. The paper will be issued monthly and about 10,000 copies will be printed. It will be distributed free.

Increase In Immigration

Ottawa.—Immigration to Canada for the seven months of the present fiscal year ended October 31, amounted to 131,754, compared with 118,158 for the same period a year ago. This represents an increase of 11 per cent. Many Canadians during the same period returned from the United States to take up permanent residence in the Dominion.

Leaves For Battle Creek

Winnipeg, Man.—Premier John Bracken has left for Battle Creek, Mich., and will recuperate at the sanatorium there. It is not expected that he will return to the city until about Christmas. He has been in poor health for a considerable period. Hon. W. R. Clubb, minister of public works, will be acting premier in Mr. Bracken's absence.

Air Mail Service Speedy

Winnipeg, Man.—The air mail service to be inaugurated in the prairie west, December 10, will make it possible for correspondence to be delivered at Regina, Saskatoon, Calgary and Edmonton the same day as it is written. As well, despatches for those cities will contain mail for adjacent or connecting points to be forwarded by next mail.

Your work would not be so hum drum if you put more hum into it.

HOCKEY CLUB PERSONNEL

The Gleichen 22nd Battery Intermediate hockey team held their first practice of the season Thursday, last, and from the showing it looks as though Gleichen can look forward to a better season than ever. One thing that Gleichen can be proud of is the fact that practically everyone on the team are local boys and have learned all their hockey right here, the oldest on the team being only 25 years old. The following are the team up to the present time:

Allan Wilson, proven goalkeeper of the past few years who is 22 years

old, was born in Gleichen and learned to play hockey here.

Austin Wilson, defence, brother of Allen, who is 25 years old, born here and a local hockey product. He surprised his team mates recently by joining the ranks of the benedicts.

Tom Johnson, defence, 19 years old, who was born in Maple Creek, Sask., came to Gleichen eight years ago and has learned all his hockey here.

Bob Brown, forward, 22 years old, who was born in Scotland, but learned all the tricks of hockey right in Gleichen.

DeForest (Tiger) Lyon, forward, 21 years old, born in Illinois but learned to play hockey in Gleichen.

Walter (Si) McKay, forward, 23

for Economical Transportation

The Outstanding Chevrolet of Chevrolet History - a Six in the price range of the four!

When you learn the full details of this sensational new automobile, you will realize that Chevrolet has provided those qualities of six-cylinder smoothness, power, acceleration and luxury which heretofore could only be enjoyed in cars costing several hundred dollars more!

The CHEVROLET Engine

The Outstanding Chevrolet is powered by a new six-cylinder valve-in-head engine of advanced design.

It develops 32% more power than the previous Chevrolet motor and affords greater speed, faster acceleration and an economy averaging better than twenty miles to the gallon of gasoline!

A new non-detonating cylinder head provides high compression performance without special fuels. The new hot-spot manifold assures complete fuel vaporization. The new and larger carburetor incorporates an automatic acceleration pump, and an improved venturi choke for quicker winter starting.

The new heavier crankshaft is statically and dynamically balanced. The entire rocker arm mechanism is automatically lubricated. Long engine life is provided for by AC air cleaner, continuous self-purification of the crankcase oil—and improved crankcase ventilation.

Big, powerful, easily adjustable four-wheel brakes. Ball-bearing steering mechanism. And such costly car features as two-beam headlights with toe button control for "dimming", semi-automatic spark control, theft-proof Elec-

trolock, waterproof spark-coil construction, larger shielded safety gasoline tank in rear, improved differential lubrication and many other features of comparable importance.

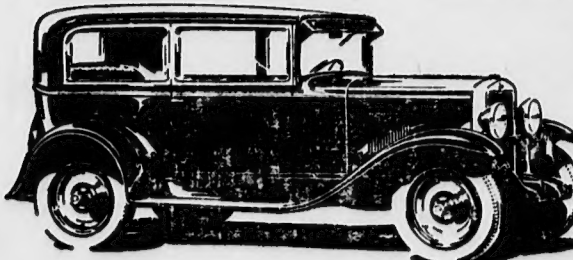

New Bodies by Fisher

In addition the New Chevrolet offers an order of beauty, distinction and style never before attained in any low-priced automobile! The high flattened hood and the gleaming chromium plated radiator shell furnish the keynote of rugged smartness and grace. The rakish unbroken lines, emphasized by distinctively grouped hood louvers, are suggestive of speed and alertness. The divided body moulding and concave front pillars reflect the vogue so wisely favored by leading custom builders; while the larger, longer, lower bodies are themselves masterful examples of the craftsmanship for which Fisher is internationally renowned.

The seats are wider and more restful. The driver's seat in all closed models is easily adjustable, forward or back—a feature recently introduced on a few of the high-priced cars. The redesigned dash carries an attractive grouping of all control instruments indirectly lighted, including the new motor temperature indicator.

PHONE DAY and NIGHT 41

GLEICHEN, - ALTA.

FOR SALE OR RENT—Quarter section, with up-to-date house, known as "Bar H Farm." Apply T. Barry, Phone 803, Strathmore. 35tf

Claud Hughes, L.A.B., L.L.C.M., music teacher, at Queens Hotel, Fridays and Saturdays. 35tf

years old, born in Gleichen and who learned all he knows about hockey in his home-town.

Campbell Brown, forward, brother of Bob, born in Edmonton 18 years ago and learned his hockey in Gleichen.

Bill Taylor, forward, 18 years old, born in U. S. but learned the hockey game in Gleichen.

Pat Beach, a promising substitute goalie, born in Gleichen 17 years ago and trained his eagle eye in his home-town.

There are also one or two other prospective players in view who are having their chance to make good in the practices being held every evening.

The junior team also sponsored by the 22nd Battery, as a feeder to the Intermediates are going to practice every evening from now on.

Town & District

Mr and Mrs. A. C. Clifford desire to express their appreciation to the many who sent flowers to their little son Arthur during his illness at Banff.

Most people trade where they are invited to trade in advertising.

The Women's Auxiliary of St. Andrew's Church will hold a sale of fancy work and home cooking, and also serve afternoon tea in the Gleichen Community Hall on Saturday, Dec. 15, at 3 p.m.

The enterprise of a town is ever judging by the advertising in its local paper.

Harvey Hansen certainly has wonderful potatoes this year, dry and equal in size. He left a few sacks at the Call office the other day that would be the envy of all good Irish folks.

Gleichen theatre goers are to have the opportunity of seeing two of the greatest motion pictures yet produced. "Ben Hur" will be at the Community Hall on Jan. 14th and "The Big Parade" on Feb. 18th.

Dr. A. W. Bowles writes the Call from Vienna that he was leaving there October 23rd for Switzerland but expected to be back at his home in Kentville, Nova Scotia, for Xmas, and wants the Call there when he arrives. Evidently "Doc" and his good wife are having a good time in the Old Country.

There is still good business openings in Gleichen for people who are ready to let folks know what they have to offer and advertise their prices—try it.

Mr. and Mrs. G. T. Jones left last Thursday on a motor trip to spend three months in the Southern States visiting their old home and many other places.

Waiter: "Would you like to drink Canada Dry, sir?"
Customer: "I'd love to, but I'm only here for a week."

The whole Dominion is talking of the great improvement in the Family Herald and Weekly Star, Montreal. At \$1 a year or three years for \$2 it is the farmer's highest dividend paying investment and the family circle gets with it the best of all magazines free.

Turkey Shoot at Cluny, Friday, December, 14th.

Another social dance is to be given in the Living-springs school next Friday, Dec. 14th.

J. E. James is back from the Calgary hospital, and is up and around again.

Curle Morrow has taken G. T. Jones place, as stage driver to Arrowwood while Mr. Jones is away.

The Gleichen Public School Xmas examinations started this week.

The ice on the rink is in very good shape for skating and hockey practice.

Remember the dance at Living-springs next Friday—14th.

One dollar invested in a year's subscription to the improved Family Herald and Weekly Star of Montreal will bring the farmer better dividends than one hundred dollars in the bank. The farmers' wives, daughters and sons, get free, the best magazine extant.

The "Live Wire", Trail Ranger Boys of the United Church invite you to an entertainment on Friday, Dec. 14th, at 8 p.m. in the Church. Two sets of Lantern Slides will be shown.

(1) "The Jack Daw of Rheims," or "Where Jim Crow got his name."

(2) "Where the Peace River flows"

These with musical numbers by the boys will make a great program. A connection will be taken. The boys have been successful in electing their candidate to Parliament and are anxious to raise money to defray his expenses while at Parliament. Come out to help the Boys.

The Women's Missionary Society of the United Church will hold their annual thank-offering meeting in the church, on Wednesday, December 12th, at 8 p.m., when Miss Scruton, of Korea, will deliver an address on the missionary work in Korea. Everybody is invited.
